INTRODUCTION

The Monthly Bulletin of Employment Statistics was first issued in November, 1941 and has, with one exception, appeared every month since that date, the present issue being the seventy-fifth. The figures contained herein are based on data obtained from 1933 Census, the Civilian Register of 1943, the Occupation Survey of 1945, Annual Censuses of Factory and Rural Production and returns from Governmental Authorities, together with Monthly Pay-Roll Tax Returns lodged by all employers (Other than Commonwealth Government Authorities, religious and benevolent institutions and public hospitals) paying more than £20 per week in wages.

A list of tables included in previous Bulletins but not published in current issues was given in Bulletin No. 69, issued on 7th November, 1947. A table (No. 8) showing the estimated employment in Factories by classes during September and December, 1947 was included in the previous issue (No. 74).
